• Examine sustainable approaches to accelerate physician engagement and development
Agenda

- Introductions
- Setting the Stage
- Strategies to Engage Physician Leaders
- Sprint Method Exercise
- Q&A
Your Speakers

Dr. Stephen Beeson is a board-certified family medicine physician, nationally recognized speaker, author, and physician leadership tool developer. Dr. Beeson has provided tools and tactics for engaging and training physicians for hundreds of medical groups and hospitals throughout the country. He recently founded PracticingExcellence.com, a premier online physician training destination due for launch in the Fall of 2013.

Tracy Duberman, Ph.D., MPH, FACHE President & CEO, The Leadership Development Group

tduberman@tldgroupinc.com

Tracy Duberman, Ph.D. is an executive coach, organizational development consultant, business owner, frequent keynote speaker, Board member of the Physician Coaching Institute, and a Fellow of the American College of Healthcare Executives.

With a background combining business experience with innovative research on healthcare/physician leadership effectiveness, Tracy founded The Leadership Development Group, Inc. a firm devoted to developing healthcare leaders and physician executives. TLD Group works with leaders to improve performance through educational workshops, tailored on-site leadership development programs, and tailored individual coaching for physician and healthcare leaders.
Setting the Stage
The Changing Healthcare Landscape

**Macro Changes**
- The fee for service model is dying a slow death → value-based delivery
- A growing portion of revenue is placed “at risk” based on performance
- Payers are beginning to “triage” patients to systems that deliver on performance measures
- There is a movement toward patient empowerment using hospital, medical group and physician performance transparency

**Physician-Specific Changes**
- Physicians are becoming a highly integrated part of the health care delivery system
- Physician influence on others is more than we realized
- Physician engagement, alignment, willingness and participation are a necessity for organizational performance and agility

Health Systems must engage and activate physician leaders to drive change required to improve the patient experience, quality of care, and cost of care
Health System-Physician Collaboration is Required to Meet Market Demands

New Compact Must Be Built on Strong Contractual, Operational Foundation

Evolution of Hospital-Physician Partnerships

- Laying a Strong Foundation
- Unifying the System
- Meeting New Market Demands

Performance-Focused Contracting
- Capturing Value from Systemness
  - Refining Contracts
  - Aligning Incentives with Individual Performance
  - Securing Key Specialties

Value-Driven Transformation
- Redefining the Network Ambition
- Developing and Executing a Unified Strategy
- Organizing to Deliver Seamless Patient Care

True Systemness
- Returning Value to Patients and Purchasers
- Projecting a Common System Identity to the Market
- Delivering a Unified Cross-Continuum Care Experience
- Fulfilling Ambition to Improve Health of the Community

Why is Engaging Physician Leaders Important?

• The Patient Experience
• Quality of Care
• Cost of Care
Physician Leadership is Critical to Physician Engagement and Embracing Change

• Physician Engagement will predict Organization Culture and Performance
• Physician Leader skills are CRITICAL to executing engagement
• SKILLS to lead, enroll and engage can be learned
Physician Leadership Effectiveness

- **Leading Self**
  - Self Awareness
  - Self Management
  - Self Development

- **Leading Others**
  - Build Effective Teams
  - Communicating & Inspiring

- **Leading Change**
  - Resiliency
  - Courage & Authenticity
  - Change Management

- **Leading for Results**
  - Decisiveness
  - Systems Thinking
  - Business Acumen
Strategies to Create Extraordinary Physician Leaders
Call to Action: 3 Strategies to Create Extraordinary Physician Leaders

1. Customized Physician Leadership Development Programs

2. Physician Councils

3. Dyad Structure
Strategy #1: Customized Physician Leadership Development Programs

**70/20/10 Development Model**

- **Action Learning:** Process to apply learning and development through work on real individual and/or organizational projects
- **Formal Training:** Interactive Learning Modules
- **Assessment & Coaching:** Assessment, Coaching and Feedback

- 70%
- 20%
- 10%
Small groups work collaboratively with cross-functional teams to derive solutions to strategic / management issues while developing leadership skills

- Results-driven learning process
- Identifies solutions to problems that provide immediate, measurable impact and organizational results
- Develops leadership capabilities
- Aligns to business goals
20%: Leadership Assessment, Feedback and Coaching

Through formal coaching and/or mentoring, develop specific leadership behaviors for enhanced leadership effectiveness

- Leading Self
- Leading Others
- Leading Change
- Leading Results
10%: In-Classroom Formal Training

Customized learning modules delivered by internal and external experts focused on priorities for change incorporating:

- Customized case analyses
- Small group learning exercises
- Interactive lectures and discussions
- Application-based readings
Strategy 2: Physician Council

- Effective physician leaders and emerging leaders with formal access to the executive team
- Meet monthly to “listen, respond and create results together”
- Not a secret meeting, but a highly visible operation to collaborate
Business leaders can get frustrated at what appears to be a simple business and financial decisions when clinicians stress the clinical challenges and pitfalls of any innovation and refuse to buy into the operational decision.

...Sound familiar?
An administrative leader and a clinician leader are closely partnered in a shared and complementary decision-making relationship.
Dyad Structure Benefits

• Experience and studies demonstrate significant success

• Enhances clinician engagement, trust, and participation

• Ensures optimal melding of clinical perspective with operational expertise

• Broadens perspectives of leaders
Success Predictors

• The right people – Leaders must ‘fit’

• Clarity of roles – Outline a solid, shared understanding

• Organizational and Leader commitment – Trust the model

• Effective communication – Between dyad and to the team

• Building skills and capacity – Support and training to co-lead

• Manage conflict – Commit to work through differences
Exercise Instructions

• Break into groups of 2-3

• What are the best physician/executive collaboration strategies you have done or read about?

• What didn’t work?

• How would you approach it differently given the learnings from today?
Q&A
