Physician Leader Development
Strategies for Success
September 9, 2014
Opening Polling Questions

1. "Do you offer formal leadership development programs for your executives?" Yes/No
2. "Do you offer formal leadership development programs for your physicians?" Yes/No
3. "I believe that engaging physician executives in leadership development initiatives is beneficial." Strongly Disagree - Disagree - Neutral - Agree - Strongly Agree
Tracy Duberman, PhD, MPH, FACHE is Founder, President & CEO of The Leadership Development Group, a firm dedicated to developing healthcare leaders and physician executives.

TLD Group works with executive and physician leaders and senior leadership teams to develop their leadership skills and competencies to manage change effectively. Our customized leadership development offerings range from coaching to large scale leadership development programs which are hands-on and practical. We offer educational workshops, tailored on-site leadership development programs, and tailored individual coaching for executive, nurse and physician leaders.
Learning Objectives

• Build the case for physician leadership

• Gain knowledge of physician leadership development and alignment strategies to foster collaboration with healthcare leadership

• Discover a roadmap for developing physician learning academies
Agenda

• Setting the Context
• Strategies to Create Extraordinary Physician Leaders
• Atlantic Health System - Case Study
• Small Group Exercise
• Q&A
Setting the Context
The Changing Healthcare Landscape

**Macro Changes**

- The fee for service model is dying a slow death → value-based delivery
- A growing portion of revenue is placed “at risk” based on performance
- Payers are beginning to “triage” patients to systems that deliver on performance measures
- There is a movement toward patient empowerment using hospital, medical group and physician performance transparency

**Physician-Specific Changes**

- Physicians are becoming a highly integrated part of the health care delivery system
- Physician influence on others is more than we realized
- Physician engagement, alignment, willingness and participation are a necessity for organizational performance and agility

Health Systems must engage and activate physician leaders to drive change required to improve the patient experience, quality of care, and cost of care
The Vision: True Systemness
Health System-Physician Collaboration is Required to Meet Market Demands

Physicians who step into leadership positions can find that their backgrounds don't necessarily prepare them for leading others.

• These physicians require new skills and competencies so they are equipped to successfully guide their organization through a changing healthcare landscape.
Physician Leadership is Critical to Physician Engagement and Embracing Change

- Physician Engagement will predict Organization Culture and Performance
- Physician Leader skills/behaviors are CRITICAL to executing engagement
- SKILLS/BEHAVIORS to lead, enroll and engage can be learned

“Leadership has been identified as the most important ingredient in transformational improvement”
From Joint Commission Resources presentation; Executive quality improvement survey results. Journal of Patient Safety. 2 March 2006
The Dividend of Physician Leadership

When an organization is populated with physicians that will lead their areas of influence, there is no limit to the speed and magnitude of change that can happen
Benefits of Physician Leadership Development

Organization

Physicians

Patients
Benefits to the Organization

• Direct linkage to triple aim
  – Improves patient experience
  – Improves the health of populations
  – Reduces the per capita cost of health care

• An organization’s commitment to physician development is positively correlated with quality

• Leads to increased employee engagement

• Enhances recruitment and retention of quality physicians as engaged physicians influence the behavior of other clinicians
Benefits to Physicians

- Activates physicians to take a proactive role in healthcare delivery strategy and implementing change.
- Enables physicians to learn critical skills such as negotiation, communication, conflict resolution, and change management skills – elements which are pertinent to successful patient care.
- Improves relationships with patients and colleagues.
Benefits to Patients

• Stronger relationships with the physician
• Increased patient involvement in health care decisions
• More positive interpersonal interactions and stronger relationships with the physician
• Better outcomes due to increased adherence to physician orders
Strategies to Create Extraordinary Physician Leaders
3 Strategies to Create Extraordinary Physician Leaders

1. “-Ad” Structures
2. Physician Councils
3. Customized Physician Leadership Development Programs
Strategy 1: “-Ad” Structures

Business leaders can get frustrated at what appears to be a simple business and financial decisions when clinicians stress the clinical challenges and pitfalls of any innovation and refuse to buy into the operational decision.

…Sound familiar?
“-Ad” Structure Definition

• A partnership between administrative leaders and clinical leaders who work closely in a shared and complementary decision-making and management relationship.

• Can be Dyad, Triad, Quadrad, etc.
“-Ad” Structure Benefits

• Enhances clinician engagement, trust and participation
• Ensures optimal melding of clinical perspective with operational expertise
• Broadens perspectives of leaders
• Assists in the change process
Strategy 2: Physician Council

• Effective physician leaders and emerging leaders with formal access to the executive team

• Meet monthly to “listen, respond and create results together”

• Not a secret meeting, but a highly visible operation to collaborate
Strategy #3: Customized Physician Leadership Development Programs

Roadmap for Developing Physician Leadership Academies

1. Prime the Organization
2. Define Leadership
3. Conduct Assessments
4. Design
5. Deliver
6. Measure
7. Sustain
1. Prime the Organization

- Obtain buy-in & commitment from CEO, senior executive and physician leadership
- Determine selection process
- Identify physician champions
- Establish steering committee and design team
- Establish engagement and communication plan
2. Define Physician Leadership

Physician Leadership Effectiveness

Leading Self
- Self Awareness
- Self Management
- Self Development

Leading Others
- Build Effective Teams
- Communicating & Inspiring

Leading Change
- Resiliency
- Courage & Authenticity
- Change Management

Leading for Results
- Decisiveness
- Systems Thinking
- Business Acumen
3. Conduct Assessments

Organizational Assessment

Introduction:
- Provide background on APLA, Action Learning, and reason for interview

Purpose of the interview:
- Obtain insights on Health System priorities and needs
- Provide summary of assessment and aggregate view based on interview learnings
- Findings will be used to identify action learning projects for APLA leadership development program

Interview approach:
- Semi-structured format
- Note-taking
- Confidential – quotations are used but not attributable
- Approximately 1 hour time contract

Leadership/Individual Assessments

HCAHPS
Hospital Consumer Assessment of Healthcare Providers and Systems

MSCEIT
Mayer-Salovey-Caruso Emotional Intelligence Test™

The Hogan Guide

360° feedback

THE LEADERSHIP DEVELOPMENT GROUP
INNOVATIVE SOLUTIONS - IMPACTFUL RESULTS
4. Design

- Finalize program objectives and success criteria
- Confirm participants
- Establish length of program and time commitment
Design Using 70:20:10

**Action Learning:**
Process to apply learning and develop leadership competencies through work on real business problems

**Didactic Training:**
Structured training courses focusing on development of leadership skills and competencies

**Assessment & Coaching:**
Mentoring and networking; assessments, coaching and feedback
70%: On-the-Job Training: Action Learning

Small groups work collaboratively with cross-functional teams to derive solutions to strategic / management issues while developing leadership skills

- Results-driven learning process
- Identifies solutions to problems that provide immediate, measurable impact and organizational results
- Develops leadership capabilities
- Aligns to business goals
20%: Leadership Assessment, Feedback and Coaching

Through formal coaching and/or mentoring, develop specific leadership behaviors for enhanced leadership effectiveness

- Leading Self
- Leading Others
- Leading Change
- Leading Results
10%: In-Classroom Formal Training

Customized learning modules delivered by internal and external experts focused on priorities for change incorporating:

- Customized case analyses
- Small group learning exercises
- Interactive lectures and discussions
- Application-based readings

**The Leadership Development Group**

INNOVATIVE SOLUTIONS - IMPACTFUL RESULTS
5. Deliver

• Assign individual and team learning projects
• Provide individual and team coaching
• Create and deliver learning modules
6. Measure

• Monitor individual and team progress
• Measure performance and course correct
• Final evaluation and graduation
7. Sustain

• Evaluate performance and implement Year 2 elements

• Establish strategies for sustainability including:
  – Mentorship programs
  – Strategic succession planning
  – Plan for sustaining APLA for future years and additional cohorts
Critical Success Factors for Physician Leadership Academies

- Trust
- Accountability
- Physician Champions
- Common Purpose and Vision
- Multiple Learning Methods
- Engagement Strategy
- Sustainability
- Collaborative Culture

(The Leadership Development Group)

Innovative Solutions - Impactful Results
Atlantic Health System

Perspectives from the Field
Case Study

Situation:
- Atlantic Health System
- Non-profit, multi-hospital system with both staff physicians and voluntary physicians
- More than 3,250 affiliated physicians
- CMS Shared Savings ACO

Challenge:
- Strengthen alignment among physician leaders to AHS goals and objectives
- Foster integration among physician leaders and with the executive team
- Focus on growth opportunities and innovation
- Develop physician leaders to drive the necessary changes through the system and be positioned for success
# The Solution: The Applied Physician Leadership Academy

- Change Management  
Leading Results  
- Decisiveness  
- Systems Thinking  
- Business Acumen  
- How do we grow the business?  
- How to reduce utilization while maintaining quality?  
- How physicians can improve patient outcomes?  
- How do physician leaders execute on their roles and responsibilities?                                                                                                                                 |
| **Action Learning**               | Small groups of physician leaders work collaboratively with colleagues to derive solutions to strategic / management issues while developing leadership skills.                                                                                           |                                                                                                                                                                                                       |
Results

• Enabled physician leaders to develop their leadership prowess real-time

• Leaders acquired valuable skill sets including:
  – How to enhance physician performance in their departments
  – How to create high performing clinical care teams
  – How to lead with authenticity
  – Business fundamentals for physician leaders.

• The action learning project work led to system-wide solutions to strategic problems:
  – Creation of a “physician” or “shared governance” practice plan
  – Reorganization of care quality-centric efforts to embed follow-up & accountability to measure results
  – System-wide implementation of POLST (Physician Orders for Life Sustaining Treatment)
  – Creation of Chair role description and performance measure tied to compensation
Participant Feedback

• 85% of the respondents indicated the overall quality of the program was Very Good or Excellent

• 92% indicated they now have a better understanding of AHS’s strategy and future direction

• 92% indicated APLA increased their ability to work collaboratively with peers (both physician and administrative)

• 92% indicated APLA was applicable to educational and leadership development needs and it is likely they will make changes in their leadership behavior/practice

• All respondents indicated improved ability to assess problems and develop solutions incorporating appropriate stakeholders

• Majority of respondents indicated a useful part of APLA was interacting with and learning from peers
APLA Lessons Learned from the Physician Participants

• Importance of real-time application and practicing identified competencies via action learning (action learning = APPLIED learning)
  – May take longer in the short run (dictatorships are more efficient than democracy) but it’s worth it in the long-run
  – Reflective questioning and challenging assumptions stimulates new thinking and facilitates collaborative problem solving

• Leadership is a science

• Leadership competencies can be developed
  – It takes a desire to do so, a willingness to take an honest look at yourself and others, and be open to giving and receiving feedback

• TRUST is critical for engagement and alignment
  – Effective communication, particularly LISTENING, is critical for developing TRUST within an organization

• Teamwork and team dynamics takes a lot of work but is a key element of organizational effectiveness

• Importance of Emotional Intelligence, Coaching, and Mentoring for physician leaders cannot be overemphasized

• Being a ‘content expert’ does not necessarily qualify one to be a leader
APLA Lessons Learned from Executive Sponsors

• CEO and Leadership Team Support, Engagement and Oversight
• On-site delivery
• APLA Steering Committee
• Delivery by physician faculty, academicians, and AHS executives who can capture a physician audience
• Customization
• CME
• Allow time for networking
The Evolution of APLA for AHS

- Year Two – Sessions co-led by external faculty and internal senior executives with significant CEO involvement
- Year Three – Will introduce Service Line Managers to the program
Closing Polling Question

"Which strategy would you be most likely to implement in order to develop your physician leaders?"

– Strategy 1: Creating an "-Ad" Structure
– Strategy 2: Initiating a Physician Council
– Strategy 3: Utilizing a Customized Physician Leadership Development Program
